EXPERIENCES

Software engineering

Tarides

📅 March – July 2019

📍 Paris, France

- Build system integration in the MirageOS project as a follow-up to my Cambridge internship
- Work presented at ICFP 2019 - OCaml workshop

Research internship

OCaml Labs - Cambridge Computer Laboratory

📅 March – July 2018

📍 Cambridge, UK

- Wrote a native compilation backend for the OCaml compiler targeting ESP32 microcontrollers.
- Ported the MirageOS unikernel library for this system
- Made a talk on this work at ICFP (International Conference on Functional Programming) 2018 - OCaml workshop

SWERC volunteer

📅 November 2017

IA² - Fall School in Artificial Intelligence

GDR-IA

📅 October 2017

📍 Lyon, France

A week-long seminar on artificial intelligence and game theory

Research internship

CVLab - EPFL (École Polytechnique Fédérale de Lausanne)

📅 June – August 2017

📍 Lausanne, Switzerland

- Mean-field inference and machine learning
- Learning the Sudoku rules as an ill-posed problem

C'Space event

📅 2013 – 2015

The national amateur space projects launch campaign organised by the CNES (French Space Agency)

- 2013 · 2014 - I worked on several high-altitude balloons, in charge of the telemetry software
- 2015 - Participation as a volunteer

ACHIEVEMENTS

- Winner of Prologin, a national AI programming contest (2014)
- Top 2 of Speed Data Scientist, a prediction challenge (2017)
- Winner of Coding All Star, a programming contest (2017)
- Various participations to Google Hashcode/Codejam/Facebook Hacker Cup

EDUCATION

IASD Master

Dauphine University

📅 2019 – Present

📍 Paris, France

- Master program in AI Systems and Data Science
- Part of the PSL University

Master's Degree in Computer Science

École Normale Supérieure

📅 2017 – Present

📍 Paris, France

Bachelor's Degree in Computer Science

École Normale Supérieure

📅 2016 – 2017

📍 Paris, France

- With highest honors
- Also attended courses from the cognitive science department

CPGE - Undergraduate program

Lycée Louis-le-Grand

📅 2014 – 2016

📍 Paris, France

- Preparation to the national competitive admission to the "Grandes Écoles", including the ENS
- Intensive program in maths, physics and computer science

Baccalauréat

Lycée Louis Armand

📅 2014

📍 Eaubonne, France

- Scientific section
- With highest honors

SKILLS

- Programming languages: Python, C++, OCaml, Rust
- Language theory, graph theory, general purpose algorithmic
- Web applications: Typescript / HTML / CSS
- System programming, low-level programming
- Computer vision, practical machine learning, Tensor-Flow, PyTorch
- Every day usage of Git and Linux environment

INTERESTS

- Robotics / Perception / Cognitive sciences
- The frontier between AI and systems
- Compilation and functional programming
